Genomics and Bioinformatics in Clinical Microbiology

May 11, 2017 • 1:00 - 2:00 pm ET
Registration Deadline: May 9, 2017

DESCRIPTION

This program will discuss how next generation sequencing (NGS) in conjunction with simple bioinformatics solutions enable genomics in the clinical microbiology lab, and in pathogen surveillance during infectious outbreaks in the hospital and in communities.

OBJECTIVES

At the conclusion of this program, the participant will be able to:

- Explain why bacterial genetic diversity complicates patient management
- Describe the role of next-generation sequencing and computing in clinical microbiology

SPEAKER

Awdhesh Kalia, PhD, MB(ASCP)^{CM}, FACS^c, Assistant Professor, The University of Texas MD Anderson Cancer Center, Houston, Texas

AUDIENCE

This intermediate-level program is appropriate for laboratory professionals working in clinical, public health and academic settings.

CONTINUING EDUCATION

The American Society for Clinical Laboratory Science (ASCLS) is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.[®] Program. Participants who successfully complete the program will be awarded 1.0 contact hour. ASCLS P.A.C.E.[®] is accepted by the ASCP Board of Certification and all states including Florida and California as an approved provider of continuing education.
