

Author Checklist

Authors submitting manuscripts for publication should print, complete, and submit this checklist with their manuscripts.

GENERAL:

- One electronic copy of the manuscript
- Pages printed in 12 pt. type, double-spaced, and numbered throughout
- Separate pages used for figures, tables, and legends (all double-spaced)
- A list of index terms for indexing purposes (three to five)
- Abbreviations spelled out
- Cover letter with corresponding author, address, telephone, e-mail address, and fax number. A paragraph regarding the manuscript relevance to *Clinical Laboratory Science* readership included in the cover letter
- Manuscript neither stapled nor folded
- Signatures of all contributing authors
- Short title of ten words maximum
- A concise abstract of 150 words or less, included (structured abstract preferred)
- Introductory paragraph included
- Measurements reported in Standard International units
- Paragraph of acknowledgments if desired
- Listing of financial support
- Listing of authors' complete addresses
- References cited by consecutive numbers with corresponding, double-spaced list

RESEARCH PAPERS

- Separate sections for Materials and Methods; Results; and Discussion
- Ethical review, informed consent, and humane use of laboratory animals included

TABLES AND FIGURES:

- Captions/heads above each table
- Each table on separate page and in separate file
- Figure legends provided on separate page
- One copy of each figure included with an identification label
- Scale bars provided for all figure magnifications

I have checked that the submitted manuscript conforms with the style and format as outlined in the Instructions to Authors. This material has not and will not be submitted for publication elsewhere while under consideration by *Clinical Laboratory Science*.
