

CLEC 2022 ENGAGEMENT OPPORTUNITIES

Educators are the first and most impactful influencers on future professionals. The Clinical Laboratory Educators Conference is the single largest gathering of clinical laboratory educators with more than 500 attendees each year. With the option for attendees to attend either in-person or virtually, we anticipate larger than normal attendance. Participants include a critical mass of thought leadership from hospital and college/university-based educational programs for clinical laboratory scientists, clinical laboratory technicians, Masters, PhD, and DCLS-level programs, including department chairs, program directors, faculty members, education coordinators, clinical coordinators, and advisers.

Educators and industry have mutual interest in advancing and impacting the profession. In partnership, laboratory science educators and industry both bring value to an environment of learning, creativity, and innovation. The goals of our 38th annual conference include enhancing instructional skills, developing innovative teaching techniques, and identifying trends and strategies to manage the changing profession.

The digital hub for the meeting provides industry partners access to all attendees before, during, and after the meeting. All industry partners are full registrants and encouraged to attend educational sessions that impact their diagnostic area or any area of interest. Partners are welcome to engage in conversations throughout the virtual space and online communities and participate in social activities. Meeting content, including session recordings, will be available throughout March and April for continued engagement opportunities.

CLEC ENGAGEMENT PACKAGES

Traditional approaches where salespeople sit in a segregated exhibit hall waiting for customers to wander by will not work. Successful companies and organizations will engage attendees where they are, which includes educational programming, networking opportunities, and social events. The partner listing in the digital meeting hub should be used to give attendees access to key information directly and provide a means for further engagement, either through a virtual meeting room hosted by industry partners or a custom microsite that can be used to track engagement and facilitate remarketing.

Engagement packages are designed to be right-sized and all-inclusive for any industry partner's needs. However, we anticipate that some individual companies will have unique needs that require custom solutions.
